About our Pay N' Talk phones

You can save up to 60 % on all of your long distance with Pay N' Talk!*

Tired of paying high rates for regional, national or international long distance calls? Tired of not understanding your phone bill? Tired of thinking you're paying one price for your calls and seeing fees and taxes double the real price?

Pay N' Talk changes all of that!

- All Pay N' Talk calls include all taxes and there are no added fees.
- Pay N' Talk Regional and National calls are all 3.9 cents per minute.
- Pay N' Talk International calls are charged per minute at incredibly low rates.

Heating bills are going up...

Luckily, your long distance won't.

Discover how to save with Pay N' Talk >>

How to set up

Step 1: Charge & connect

Bring your new phone home and, like any cordless phone, plug it into your phone jack to give the handsets their initial charge.

Step 2: Activate & use

Press the LDS auto-key and you are instantly and seamlessly connected to an IDT Telecom representative in milliseconds. The IDT representative will take the account number included in the packaging and your account is activated. The call only takes a minute or two.

To make your first call, simply press the LDS key (instead of the talk key) and dial using the exact same dialing format as

You are never obligated to use the service, in fact, if you choose to never use it, you just have a great new phone. If you choose to use the Pay N' Talk service, you will save money on your long distance calls every month.

We're so confident that you'll love the Pay N' Talk service, we include free calling minutes with every phone and every handset.

Every Pay N' Talk enabled phone comes bundled with credit for long distance minutes. Simply activate the included account in seconds and immediately make calls to any phone in the world.

Frequently Called Countries

With American Telecom's Pay N' Talk, there is:

- No need to designate or change your long distance or local service provider
- No need for an internet connection
- No additional or hidden taxes or service fees
- No bill that comes in the mail
- No complicated sign up process
- No cost difference between in-state and out-of-state calls

*60% savings when compared to 2003 national average of \$79.67 as listed by Bureau of Labor Statistics, and 2003 data from TNS telecoms stating that households annually spend \$441 on local service and \$122 on long distance service.

you have always used for
making long distance calls:

U.S., Canada and Puerto Rico:

1-[area code]-[number]

International calls:

011-[country code]-[number]

Pay N' Talk service is provided by **IDT Telecom**, one of the nation's fastest growing consumer service providers and an award winning leader in providing prepaid telecom services.

Step 3: Recharge

Pay N' Talk is a prepaid service. Each time you make a call, the cost of that call is deducted from the value of your prepaid account.

There are two options for recharging your account:

Option 1: Each time the value on your is low, you can press the LDS auto-key and connect to IDT to make a one-time payment.

Option 2: You can set up an automatic replenishment system with IDT Telecom. Each time your balance falls below a pre-set limit (chosen by you), your account will automatically be replenished with a pre-set amount (also chosen by you).

You will be notified by the Pay N' Talk system whenever your account is low. You will be given the option to connect to IDT Telecom to recharge your account.
